carovella

SELL SHEET · 2026 HARVEST

100% Italian new-harvest extra virgin olive oil.

Olio nuovo from the 2026 harvest, packed in tins for professional kitchens and sold FCA Italy to importers and distributors in the United States.

OIL **Extra virgin** Italy, 2026 harvest	FORMATS **5 L and 3 L tins** For foodservice	PRODUCER **FDA-registered mill** In Italy, packed for Carovella
TERMS **FCA Italy** Collected at the mill	FIRST ORDER **From 150 L** 5 L and 3 L tins	PRICE LIST **On request** Sent separately, with samples

Why Carovella

This year's oil. Olio nuovo means "new oil": it comes from the current harvest, the 2026 one, not from last year's stock.

Tins built for kitchens. 5-litre and 3-litre tins keep out the light and are easy to handle and store on the line.

Straight from the mill. The oil leaves the mill in Italy and goes to your forwarder, with no warehouse in between.

How it works

1. Ask for the price list and a sample.
2. Place your order, from 150 litres.
3. Your forwarder collects the tins at the mill in Italy (FCA Italy, Incoterms 2020).
4. You import as usual: customs, FDA Prior Notice and FSVP.

We sell to importers and distributors only. Prices are not on this sheet: the price list is sent separately.
